Massive Sale

May 2004

It seems hard to believe for us but it is more than two years since we took over from Adams Timber. During this time we have made a lot of changes about the place with more planned. We have also been storing some timber on behalf of Adams but as they are no longer in business they want to sell it off. I want it out of my way too so we are having a one week clearance. Make no mistake, this is a genuine sale and much of the stock will be discounted by up to 60%. This is also a one off sale and will start on Saturday May 8th for wood work clubs and our trade customers. The sale opens to the general public the following Monday and will run for one week only. After that we pack up anything that is left and send it to Melbourne.

The sale stock will be offered in small job lots, not single boards. We will make bundles to suit most people and will also be offering some discounts on our normal stock too. Here is a brief list of some items on offer.

Brazilian Teak, Lignum Vitae, Brush Box, Chinese Ash, Cypress Pine, Chinese Oak, English Brown Oak, French Walnut, European Oak, Baltic Pine, Shedua, Sydney Blue Gum, Rose Gum, Blackbutt, Spotted Gum, Red Mahogany, Woolly Butt, Tallowwood, Yellow Stringybark, Surian

Oregon lining,
Leatherwood Vic Ash,
Jarrah.

We also have various small lots of flooring including:

Red Gum, Vic Ash, Mixed Hardwood, Peppermint, Karri. and
Tallowwood Decking, Ash Skirting.

If you come out on Saturday 8th May at midday we will have some food and drinks available at a small charge. Proceeds will go to the Bredbo Bushfire Brigade and Bredbo P&C. Through the afternoon we have some things planned including demonstrations by Ernie from Organoil. Come and find out how to get the best from this product. Hope to see you on Saturday so you can have first go at the sale stock.

Tas Oak Flooring.

We have always sold Tasmanian Oak Flooring but recently we took the decision to keep larger volumes on hand. We now have available ex yard 85 x 19 in Select and Standard grades as well as 85 x 13 in the same grades. Although similar to the Vic Ash the Oak tends to show a greater range of colours and character. This should suit those looking for a classy yet not overstated floor. The light to medium

colours perform well in both large areas as well as small, confined spaces where light can be an issue. If you would like any info on these products please feel free to drop by. We can also assist with matching solids including rough sawn, dressed, laminated tops and treads and skirtings.

Email Newsletter

Last month we kicked off our distribution of this letter via email. Apart from a couple of small hiccups all went quite well. If you would like to join our mailing list simply email me. shaun@mww.com.au or ring us.

New Stock.

The past month has seen the arrival of a few new items and a top up of many others. We have received new 50mm Qld Silver Ash, 25mm natural feature Jarrah, various Tas Oak sizes including 250 x 25.

Last month I forgot to mention our new Qld Walnut. We have 38mm boards in random widths, some up to 5.4m in length and 300mm wide. Magic stuff!

Wrap Up.

I still have a bandsaw for sale and now a Hilux ute. It's in great shape but no longer required as we have bought a dual cab. Rego till Feb next year and asking \$10,000

That's it for another month. Don't forget the sale.

Regards *Shaun.*
