## Positions vacant.

We have undertaken some growth in recent times and now we need some more hands on deck to keep up with things. The following positions need filling.

### Wood machinest.

You will be responsible for a range of machines including the complete operation of a five head moulder. This position requires an experienced operator.

### Timber sales.

You will work both within Monaro Timber and out on the road. An understanding of the timber or building industry is required along with good presentation and interpersonal skills. Further training will be provided.

### Office assistant / reception.

As the first contact presentation is critical. You will need good basic computer skills, an ability to quickly learn new systems and the skills to help organize the rest of us!

For full details on these positions please email me or ring on 0419 258457.

Newsflash. New email address being phased in.

## New Stock.

A lot of new stock has arrived over the past month. We have sold a lot too but stock levels are still very good. We have a new fiddleback and feature boards section if you are looking for something extra special. Newly arrived stocks include some fantastic 250 x 38 Blue Gum, best we've ever seen. We have taken delivery of new Tas Oak, Jarrah, Brush Box, Southern Myrtle, Hoop Pine and Western Red Cedar. The Pacific Maple we saw last month is going well, especially those 100mm thick boards. The 200 x 25 Pacific Maple in stock is very good quality and quite red in colour.

Another new product we are trying out is some dressed hardwood in a mix of species but mostly Spotted Gum and Iron Bark. The grading varies as does the price but this material comes in significantly cheaper than our normal select grade and will be suitable for a wide range of applications. Come in and check it out.

## For Sale.

EDGE BANDER MECHWOOD A3 EDGEMASTER  
IDEAL FOR 1 OR 2 KITCHENS PER WEEK GOOD CONDITION \$7000.00 ONO  
phone 0411 966 808

That's all for another month.

Regards *Shaun*

## Volume 4, Issue 9

### Showroom Floor

Since last month we have sanded and polished our showroom floor and also completed our other flooring samples. I must thank Ben from Suthern Timber Floors for all of his assistance. We now have samples with a range of coatings so not only can you compare the different timbers but now we can show you a number of floor coating options too.

### Flooring adhesive.

We now have good stocks of the Kleiberit 567 Polyurethane flooring adhesive. It is available in both sausages and 15 kg buckets. The performance of this adhesive will match or exceed the other single part flooring adhesives. Other features of this glue include good moisture resistance, solvent free, water free and approx 30 minute open time.

We are running an introductory offer of **\$5.80** / sausage if purchased by the box. Purchase over 100m<sup>2</sup> and we will throw in a box for **free**. Give it a go, it works and at these prices you will never see it this cheap again. We have data sheets and brochures available in our office if you require them.
