

Mobile Showroom up and Running.

We have been working on this project for a while and now we can introduce to you our mobile showroom service. Our van has been loaded up with mostly flooring sample panels but we also have a selection of benchtop samples, decking boards and other useful bits and pieces. If you are a builder or designer and have a client who needs some on site assistance choosing a timber, then we can now help you. Our new flooring panels are around 500mm wide by 1800mm long so they really show you what each species is like. We have examples of 12mm and 19mm solid timber flooring as well as a number of engineered floors. New to the range are a number of pre finished solid timber floors and Bamboo joins our range too.

Not only do we have a new range of sample panels, but we have showcased a range of finishing options on them thanks to our friends at Polycure. These guys produce an extensive range of floor coatings and we have used several on our samples. We have used oils with and without sealers to get different effects as well as a number of gloss levels with both oils and water based polyurethanes.

While we are showing you or your clients the flooring options available we can also measure up and arrange for an installation quote as well as the supply of the materials. We work closely with a number of local flooring contractors so we can hook you up with the right guys to do your job. Feel free to call and discuss your requirements and arrange a suitable time for a showroom visit.

Our van with flooring panels

New Stock.

During the past month we had a number of new arrivals stock wise. For those of you using structural hardwood for step treads etc we had fresh packs of 290 x 45 KD Blackbutt and Blue Gum arrive. There are other sizes available as well. We also had new 100 x 38 select grade blue Gum come in. Grey Ironbark isn't a common species in furniture boards but currently we have available 150 x 25 and 100 x 50. This is a very tough timber but polishes up beautifully.

Due in any day are 18 packs of mixed sizes in Tassie Oak. Some sizes have been in short supply recently but that will all change with the new stock. We will see both dressed and rough sawn boards come in. Other species of note this month are Jarrah in several sizes, American Cherry, Danta and Sapelle Mahogany. We have good stocks in these species.

Woodwork Club Discounts.

For our woodworking club customers, here's a special April offer. Instead of your normal 12.5% discount, on the following timbers we will give you 25%. Just make sure we know who you are before we run the invoice.

American Cherry, Kauri Pine, Baltic Pine, Sassafras, River Red Gum, American Walnut, PNG Rosewood.

Easter Trading.

We will be closed for the four day Easter break this year. If you need anything before Easter you will have up until Thursday at 4.30pm to come in and see us. If you need machining done you need to talk to us NOW!! On behalf of all the crew here at Monaro Timber I wish you a safe and happy Easter.

That's it for another month..

Cheers *Shaun*
