

Monaro Timber News

The monthly newsletter for people who love timber

April 2010
Volume 9, Issue 4

The Monaro Timber Design Centre is open.

Last month saw the opening of the Monaro Timber Design Centre. It was a great day, with strong support given by a number of our suppliers including Gunns Timber, Simmonds Lumber, Swan LeMessurier, Polycure, Organoil and AST. We had a special guest appearance by Robert DeCastella who came armed with a fantastic selection of goodies from his bakeries, "Deeks". You can find these bakeries at the Dickson and Pearce shops, and if you are gluten intolerant or just wanting grain free products, Deeks is the place to go. Our own coffee machine and catering was in top gear all day and a great many visitors joined us for a meal or refreshments throughout the day. On top of all the guests throughout the day we also had radio station 2CA on board for the morning, with another special guest, Peter Ford. Peter does all the news in the entertainment world and rubs shoulders with all the rich and famous. For one day he rubbed shoulders with us in little old Queanbeyan and it was a pleasure to have him on board for the day. He's a great bloke.

So the opening was great, a few celebs turned up and all who attended had a pretty good time. So what is the Monaro Timber Design Centre? Simply put, it's a 112m² space to showcase a broad range of timber products. On board we have not only a broad range of timber products, but also paint and carpet samples to help put your timber choices into context with other building materials. We can offer in excess of 400 options in timber flooring, 50 to 70 furniture timbers, decking, structural hardwood, bench tops, step treads and more. Basically, before making a decision on a timber product we urge you to check out the options on offer in the Design Centre. If you don't, how can you be sure you have chosen the best option for your project? Feel free to drop in anytime, have a look around and enjoy a coffee or tea with us. We look forward to assisting you with your next timber project.

Stuart Marshall Constructions.

I have invited you to drop in for a cuppa. We can offer this now due to our new kitchen area constructed by Stuart Marshall and his team. Stuart's business is unique in that as well as being a full service builder he also operates his own joinery. This gives him the flexibility to provide very personal service to his clients. We are very grateful for his assistance in getting our place together.

New Stock.

The past month has seen quite a bit of new material arrive. We had heaps of Jarrah come in, a lot of which is gone already! Don't worry, there's more coming. We saw plenty of Tas Oak arrive, Merbau decking, Jarrah decking, and over 2000m² of timber flooring. On flooring, currently the mills have good stocks of most products if you are looking for some. We also had fresh Blue Gum go in the racks and there is more Tas Myrtle coming next week. I will be doing a mill tour in Tassie next month and hope to secure some more goodies from the apple isle. For those of you with pergola projects coming up we have good stocks of the "Natures Mark" plantation grown Western Red Cedar available. To fully appreciate this fantastic material and all the sizes it comes in drop in and have a look at our full size display.

Positions Vacant.

We have some Saturday work ideally suited to a current school student who may be looking at a career in the wood industry. This may lead to a full time position or apprenticeship next year. We also need someone in the office on Saturdays to help with customers, phones, filing etc. This too may lead to a full time position. Both jobs will offer some extra work during school holidays. Interested? Call me. Thanks for making our first six months in Queanbeyan a success!!

Regards *Shaun*
